

# G3000 Medical Gas Outlet Analyzer

Now Measures Oxygen Concentration and Max Flow for Vacuum Inlets!

**NEW!**

Laptop Included.

A fast labor saving way to meet NFPA/JCAHO code requirements

Maintain utility systems for proper working order

*Why* should you invest in a Medical Gas Outlet Analyzer ?

Decreases testing time by 50% or more!

Saves Money

Promotes Patient and Staff Safety

## Enhanced Features:

- Expanded tester's notes
- Enhanced viewing of data
- Automatic data entry features
- Time and date stamping of each test

**JCAHO** Reports Automatically

When testing is completed, view results on the laptop included and quickly document observations made during testing. The reports are recognized by JCAHO and NFPA.

**NST Analyzers** do not require special skills or training. Virtually anyone can perform tests with minimal instruction.

**All NST tests** are automatically recorded, eliminating errors in reading, posting and entering results.

**TESTING MADE EASY. SAFETY MADE SIMPLE.**

## SPECIFICATIONS

Mode of Operation	Automated Testing and Data Collection
Tests Performed	<ul style="list-style-type: none"><li>• Expected Gas/Detected Gas (Avoid Cross-connections)</li><li>• <b>NEW!</b> Oxygen Concentration • Static pressure • Dynamic pressure</li><li>• Pressure Drop • Maximum Flow for vacuum</li></ul>
Pressure/Flow	Maximum Static Pressure: 220 PSIG. Maximum Flow Rate: 160 LPM.
Includes	<ul style="list-style-type: none"><li>• Laptop PC fully loaded with windows XP</li><li>• Hands free user harness that allows easy data entry</li></ul>
Enhanced Features	<ul style="list-style-type: none"><li>• Automatic time and date stamping of each test</li><li>• Special column to enter tester's name</li><li>• Enhanced list of tester's notes</li><li>• Reports with enhanced features</li></ul>
Power	Rechargeable Batteries: Approx. 20 hrs. of Operation Per Charge
Accessories	Standard: Analyzer-to-Computer Cable, New Report Generation Software (IBM®- PC Compatible), Battery Charger, Set of Five Gas Outlet Adapters (One Each For The Five Different Types of Gases), Storage Case Optional: Additional Gas Outlet Adapters

With the purchase of the G3000 Medical Gas Outlet Analyzer, NST offers a one year warranty on all parts and labor.

We are proud of the quality and accuracy of our analyzers. They are calibrated to NIST traceable standards before they leave our warehouse. Each NST analyzer comes with a 30-day limited money back guarantee.
